Professional Summary

BCA graduate and Python Full Stack Developer with hands-on experience building backend applications using Django and FastAPI, including REST APIs, database integration, CRUD operations, and authentication. Skilled in Python, JavaScript, and SQL, with practical experience in data analysis using Pandas, NumPy, and Power BI/Excel. Strong foundation in Git/GitHub and backend development practices.

Technical Skills

- **Programming:** Python, JavaScript, SQL, HTML, CSS
- **Frameworks:** Django, FastAPI, Bootstrap
- **Backend Development:** REST API, CRUD Operations, API Integration, JSON, Authentication
- **Databases:** MySQL, SQLite
- **Data Analysis:** Pandas, NumPy, Matplotlib, Seaborn
- **Data Visualization:** Power BI, Excel
- **Tools:** Git, GitHub, Postman, VS Code, Google Colab

Projects

- **E-Commerce Website** *Python, Django, HTML, CSS, JavaScript, SQL, Bootstrap*
 - Developed an e-commerce web application using Django.
 - Implemented product management, shopping cart, and order functionality.
 - Used Django models, SQL database integration, CRUD operations, and authentication.
 - Created responsive frontend pages using HTML, CSS, JavaScript, and Bootstrap.
- **Sales Analytics Dashboard** *Power BI, Excel, SQL*
 - Developed an interactive Sales Analytics Dashboard using Power BI.
 - Analyzed sales, revenue, profit, product, customer, and regional performance.
 - Created KPIs, charts, slicers, filters, and interactive visualizations.
 - Used Power Query for data transformation and DAX measures for calculations.
- **Smart Retail Analytics System** *Python, Pandas, NumPy, SQL, Matplotlib, Seaborn*
 - Developed a retail analytics project using Python and Pandas.
 - Worked with 20,000+ customer, product, and transaction records.
 - Cleaned, transformed, and analyzed data using Pandas, NumPy, and SQL.
 - Performed EDA and visualization using Matplotlib and Seaborn.
- **Simon Says Game** *HTML, CSS, JavaScript*
 - Developed an interactive memory game using JavaScript.
 - Implemented random sequence generation, user input validation, and level progression.
 - Used DOM manipulation, JavaScript event handling, and designed the interface with HTML and CSS.

Certification & Internship

- **Python Full Stack Development** — JSpiders
- **Front-End Development Intern** — Infokshetra Technologies

Education

- **Bachelor of Computer Applications (BCA)** 2025
- Shri S.R. Kanthi Arts, Commerce and Science College CGPA: 7.0/10
